Janet,

As a matter of professional courtesy I would like to receive an acknowledgment that my request for information have been received by you.

Additionally, I did want the requested information in advance of the next school board meeting. I had anticipated your resistance to my inquiry which is why I cc-ed the State Auditor's Office in my initial letter.

Based on your response I have no problem bumping up my request to the next level.

It is also my hope that you will one day learn that a request from a school board member should always result in an "expedited response". I fail to see who it serves for me to have to jump through all these hoops just to get a question answered.

Un abrazo,

Michael Clára

Subject: Newman GRAMA Request

Janet,

As usual, I have not received an acknowledgment of my request for information on the Newman grant.

I am sending you a PDF attachment of a copy of a letter I sent you on Monday.

I would appreciate confirmation that you have received my letter. Thank you.

Un abrazo,

Michael Clára
