Jason,

Your quote in the Salt Lake Tribune article: **“Lawmakers: Is Salt Lake City School District serving west side students?”** was in error when you stated: “Mr. Clara was speaking only for himself”.

On the contrary, I was testifying to the Education Task Force in my capacity as the duly elected school board member, representing District 2. I was therefore, representing my constituents, not myself.

Although, I often don't agree with your interpretation of events, I nevertheless, tolerate them. I will not however, tolerate you speaking for me without you conferring with me first.

I have no objection to this part of your statement: “...He was not representing the Salt Lake City School District board of education or Salt Lake City School District.”

I would ask that in the future, if you are going to speak for me or my actions; you would extend to me the professional courtesy of at least a phone call. That way, we can ensure that you are relating accurate and credible information to the media.

Un abrazo,

Michael Clára
