Re: GRAMA Request to Salt Lake City School District Dated 6/10/14

Dear Board Member Clara:

I am writing in response to your recent GRAMA request seeking certain records related to the USOE's Gang Prevention and Intervention proposal. I am seeking clarification as to what correspondence you are requesting in your second sentence which states, "This request should also include correspondence between Misty Suarez & Sandra Ameal and to anyone else in the school district and the USOE, as it pertains to Colors of Success and Techniques for Tough Times programs."

My specific question is whether your request for such correspondence is limited to communications that are tied to the gang prevention and intervention proposal. Or are you making a general request for all their communications on these programs regardless of whether they relate to the proposal? As the Colors of Success program has been used by the district for twenty plus years, if your request is not tied to the grant or limited to a specific time period, your request would require district staff to spend significant time and resources compiling the responsive documentation.

Also, please note that the district is currently operating under the Summer Efficiency Schedule and is not open for business on Fridays. Accordingly, a 10 business day response period will result in the district providing you with the requested documentation no later than June 26, 2014. If your request requires an extended response time of 15 business days, the district's response will be provided no later than July 7, 2014.

The district has begun compiling the requested documentation regarding the gang prevention and intervention proposal, and will begin the second portion as soon as you have provided the requested clarification.

Please do not hesitate to contact me if you have any questions regarding this letter.

Sincerely,

Kristina L. Kindl
Director, Policy and Legal Services
Salt Lake City School District
